Why Choose Us?

We led the development of the LNG industry in Australia and are applying this same pioneering spirit to solving future energy challenges. We have a focused portfolio and are recognised for our world-class capabilities as an integrated upstream supplier of energy.

We have a robust hydrocarbon business with a focus on LNG. As Australia's leading LNG operator, we operated 5% of global LNG supply in 2021. LNG is a lower-emissions, competitive fuel ideally suited to supporting decarbonisation and improving air quality. We are working to improve our energy efficiency, offset our emissions, reduce our emissions intensity and explore options for lower-carbon energy. We have set targets to reduce our net emissions in line with our aspiration to achieve net zero by 2050.
